

SEASHORE AND COUNTRY ATTRACTIONS DRAW MANY VISITORS

Many in White Mountains

WHITE MOUNTAINS, N. H., June 28.—Many of the White Mountain hotels opened this week and are already welcoming their season's patrons and others will open during the coming week. Indications now point to a splendid early season. June has been far beyond the usual mark for patronage, and those hotels which were to remain closed have been entertained many automobile parties. The cool weather of the past week has been delightful for motoring and for trout fishing and the White Mountain lakes and streams have been well patronized by fishermen.

The Mount Pleasant House, which opened June 19, had a representative gathering of motorists and guests the week end and is booked full for July 4, while the Crawford House, which also opened June 23, will have its usual distinctive gathering over July 4, when so many people take a holiday in the hills. Climbing Mount Willard on burro back and making the ascent of Mount Washington by way of the Crawford bridge path are de diversions enjoyed by the visitors there, and fishing in Saco Lake also is enjoyed by many. Fishing in the Ammonoosuc in the west end of the mountain and the Twin Mountain House is good and many large trout are taken out of the aquariums in the hotels in the early days of June.

Most of the summer camps for girls and boys, of which there are over fifty in the White Mountains and their foothills, are tented.

The vanishing of the Maplewood trapshooters has been arriving at Maplewood Inn and the hotel, which opened today, and others will arrive tomorrow by automobile, so that during the coming week the popping of guns will be heard at the Maplewood Gun Club, where clay pigeons will fly by thousands. The famous Maplewood Hundreds and other noted trapshooters will be included in the week's programme. There will be special events for Independence Day. As the first prominent sports event of the White Mountain season none attract better known sportsmen and men into the hills during the entire season than this, its only trap shooting event.

Prohibition marches perhaps in the White Mountains than in other sections of the country because New Hampshire has been a dry State since May, 1918, and the large hotels have reported a steady increase in the sale of soft drinks. The Mount Washington Hotel at Bretton Woods is making elaborate preparations for the opening of its new Grill and Forest de Danes where temperance drinks will be served, and has several innovations, including food mint tea, which is warranted to produce the most pleasant and refreshing of all soft drinks. The Waumbek, Balsams, Profile, Crawford, Maplewood, Sinclair, Mountain View, Intervale, Randall and many others of the White Mountain hotels are planning to follow suit and it is expected that despite the bone dry condition of the resorts gawdy will not suffer much and there will be as many parties in the camps as ever.

The opening of the Forest Hill Hotel at Franconia by Frank H. Abbott and son, the opening of the Intervale House at Intervale, which is the first time in its half century of history last season as a war time measure, and the reopening of Peckett's on Sugar Hill, which closed during the war, are features of the season. The Profile House will open Tuesday, when the Balsams also will welcome their former patrons. The Mount Washington Hotel will open July 7.

Improved facilities for railway travel are hoped for with this season and it is hoped that the White Mountain Railway, which has been out of service since the war, will be resumed. Many entries are now being received at the Crawford Notch and Tanglewood tennis tournaments, the annual tournament, which opens July 29 and continues through the week. Play for prizes will probably be resumed this season by the National U. S. Lawn Tennis Association.

MANCHESTER, VT.

MANCHESTER, VT., June 28.—July 4 will be a gala day for golfers at Ekwonok Country Club, when a large number will compete in a bogey handicap for the Independence Cup in the morning and in the afternoon in a best ball foursome tournament for substantial prizes. Among the golfers who will play in these events are J. Frank Stanley, J. Appleton Allen, W. A. Barber, Jr., C. L. Becker, C. R. Black, C. M. De Mott and James L. Taylor of the metropolitan district.

Programmes are being issued by James L. Taylor, chairman of the Ekwonok tournament committee, for the annual First President's Cup tourney which begins July 29 and continues through the week. This event annually brings a large number of leading golfers to the country. Prizes are offered for the first division of thirty-two and five other divisions of sixteen and two consolation divisions, in addition to the medal for low gross score and the usual handicap medal rounds. Among the leading golfers expected for the event are Max R. Marston, Oswald Kirby, Gardner White, A. B. Walker and Harry Topping.

While golf is undoubtedly the one main attraction at Manchester, there are many who find their chief pleasure in swimming in Equinox Pond, fishing the mountain streams and the lake in the Mount Equinox and the Green Mountain Range. The view afforded from the top of Mount Equinox is well worth the two hours travel to get there.

With the arrival of Robert M. Janney of Philadelphia late this week the Lincoln foursome is now complete, and there will be very few days between now and September 1 that the foursome is not on the course at Ekwonok. The early season tourist traffic is especially heavy this year, many stopping at the Equinox House each day who are motoring through this section to the White Mountains or to the Lake Champlain region. At this season of the year the gravel roads of Vermont compare very favorably with the more expensive roads of other States and are perhaps more pleasant to the motorists than the macadam roads.

Arrivals in the Cottage Colony this week include Mr. and Mrs. R. F. McQueen and Mr. and Mrs. Lloyd Saitou and family.

The annual business meeting of the Ekwonok Country Club for the election of officers and committees has been postponed from July 1 until July 19, awaiting the arrival of C. M. Clark of Philadelphia, who is one of the principal officers of the club.

From 2 o'clock until 4 each afternoon and for two hours each evening the Equinox Orchestra, under the leadership of Frank Lorenz, gives concerts in the Equinox parlor. The orchestra also is available for dancing in the ballroom at the pleasure of the dancers.

Mr. and Mrs. A. Barton Hepburn of New York have motored from Manchester to Middlebury several times recently to attend various features of the Middlebury College commencement.

Ritter, Dr. and Mrs. Charles A. Thelen and Commodore Charles S. Reed. The first large event of the season will be a card party given by the Ladies Welcome Club at the Yacht Club on July 2.

"Palm Beach" Corner, Murray's.

"How do you 'manage' to keep your patrons interested without furnishing a cabaret or entertainment of some sort?" Mortimer M. Kelly, manager of Murray's Roman Gardens on West Forty-second street, was asked by the Inquisitive Observer. "Persons who inquire to go to the theatre prefer to dine leisurely and to use an up-to-date expression, visit with each other," replied Mr. Kelly. "Then by way of variety there's the revolving floor for dancing and in the balcony is a good orchestra, so I allow my guests to provide their own entertainment. Why not stay for dinner?" he added genially. "And watch the performance."

Accordingly the Inquisitive Observer was seated at the table in the "Palm Beach" corner of Murray's and spent several hours very delightfully dining and indulging his and her period of relaxation. Everybody was thoroughly happy—excepting possibly the hard worked waiter. At one table sat a sextette of joyous young folks, three bronzed boys in khaki and three girls properly chaperoned by a portly, jolly looking mamma. For their benefit the orchestra played a one step to the tune of "When the Boys Come Home," and somehow every one felt as though they were members of the welcome home party.
